

24th Anniversary

On the 28th of February 2019, Andalusia Day, we celebrated our 24th anniversary with almost 100 people present. With spring-like weather we had a family day full of celebration. It was beautiful to see families united, children playing, adults laughing and above all, people enjoying life free from the burdens of the past and full of hope looking towards the future. The programme included testimonies from the current residents, some who have recently rehabilitated, others who have been rehabilitated for many years as well as those testimonies of family members and friends; thanks to each one who shared with us. Another part of the programme included songs and our director, Roland, presenting the technical team, volunteers and those who collaborate with us. We also heard a message, based on the prodigal son, from our president Francis and (this year especially) a superb drama piece carried out by the residents and monitors which left us all with mouths wide open. Our famous chef Doris and her family made us beautiful paella and, of course, our chef Manolo delighted us with his country salads. We concluded the day with the pastry contest in which the winners were given 'Ecological Extra Virgin Olive Oil' from the Good Samaritan centre of course. It was a day in which we were able to honour and thank God for his faithfulness and to thank all our friends and associates for their support and show publicly the salvation and recuperation that is found in Jesus Christ.
